\$312,000 Goal Set For United Fund Drive

Contributions Of 5% More Than Year Ago To Be Sought In Fall

A \$312,000 budget for the Tri-Cities Area United Fund campaign was set Thursday night by the board of directors. The solicitation to be conducted this fall will include \$274,187 for 17 agencies and \$38,026 for central UF services. The proposed agency allocations are \$121,648 higher than the previous year, indicating that contributions about 5% larger than last fall will be sought.

The \$274,187 figure includes \$20,287 for the Salvation Army, \$29,000 for the American Red Cross, \$20,000 for the U.S.O. (United Service Organizations), \$72,400 for family and child care services, \$20,000 for health services and \$134,200 for recreation and character-building agencies.

Family, Child Care
Family and child care services include the Catholic Charities, \$30,000; Coordinated Youth Services, \$18,000; Protestant Welfare, \$15,000; Boys' Town of Illinois, \$45,000; Illinois Children's Home, \$40,000; and Family Service Agency, \$15,000.

Health services are the Madison County Mental Health Association, \$6,000; Health Services Fund, \$9,000; Aid to Retarded Children, \$5,000; and Visiting Nurse Association, \$3,000.

Recreation and character-building division are the YMCA, \$54,000; Boy Scouts, \$40,000; Girl Scouts, \$17,000; Teen Town, \$8,400; and Madison Teen Town, \$4,800.

The board meeting, attended by 25, was presided over by N. R. Brink, president. Homer Huber, chairman of the executive committee, said the agency allocations for the 1963 drive represent 10.6% of the 1963 figures.

Report of the Admissions and Distributions Committee, which was accepted by the board, showed that agencies had requested \$311,375, not counting such central services as administrative expenses and campaign costs. These were pared to the \$274,187 level, most requests being trimmed.

Board Treasurer Charles L. Gavin said contribution pledge collections in the year ending June 30, 1962, were running slightly ahead of collections for the same period a year ago.

Trade Group Basis
John C. Solomons, executive director, who represented Campaign Chairman A. P. Steinhilber at the meeting, said the commercial committee for the new drive will be organized on a trade group basis. Campaign teams will be assigned to specific trade groups.

Rain Adds To Driving Hazards; Multiple Injuries In 6 Crashes

With the traffic accident pace accelerated by Saturday's rain, weekend collisions caused injuries to 21 persons on Quad-City area streets and highways. There were five fatalities. The crashes reached a total of 28 today, and six of them during the weekend included multiple injuries.

Three In Family Injured
Three members of the family of Joseph Groce, 25, of 1110 Rhodes street, were treated at St. Elizabeth Hospital after a collision involving two autos and a truck on the 2100 block of Madison avenue at 12:30 p.m. Saturday.

Groce was treated for a profuse laceration on the right arm, and his two children, a 12-year-old girl and a 10-year-old boy, were treated for minor injuries. Mr. and Mrs. Groce were admitted to the hospital.

Both cars were headed south. Damage was listed for the front and rear of the Groce auto, which was towed to a garage and the left front of the auto of Herbert H. Street, 3720 Joyce street.

Groce was passing the other auto when a bumper of his car struck the rear of the other car. The Groce car then struck across the opposite traffic lane and struck a utility pole.

Two Hurt On Route 111
A collision near Ponton road and Route 111 at 3 p.m. Saturday injured Jerry Beck, 23, Edwardsville, one of the drivers, and his passenger, Robert Wiedner, 27, Edwardsville, who were taken to St. Elizabeth Hospital for treatment. Beck suffered abrasions to the right ankle, left lower leg and right elbow, and had pains in the back.

State police said George McCain, 45, Kaseberg Park, was traveling west of Kaseberg lane and Beck was moving south along Route 111. The front of McCain's car and side of the Beck auto were damaged.

Burglars Active, 21 Cases Reported During Weekend

Twenty-one thefts and burglaries were reported to area police since last Thursday, including break-ins last night at a supermarket, auto body shop, restaurant and driveway, and theft of 10 watches Saturday night at a downtown jewelry shop.

About \$300 was taken from Uncle Charlie's Drive-In, 2610 Namekook road, during the night. It was reported to police this morning by Betty Jo Smith, 2436 Benton street. A portable typewriter also was taken, and was found outside. The money was left in a register. Entry was gained by forcing the rear door, and a small cabinet in a rear room was pried open.

Amounts of totals valued at \$180 were taken from Bill's Auto Body Shop, Namekook road, last night. Saturday night and today, it was reported at 8:20 a.m. today by William Scaturro, proprietor.

Entry was gained by removing the entire window from the west side of the garage. Burglars also removed two chrome air breathers from a 1955 auto but left them on the floor.

Restaurant Burglary
Burglars broke into the Burger Chef restaurant, 2622 Madison avenue, last night. Apparently nothing was taken. Entry was gained by forcing the rear door on the east side of the building.

Jewelry Window Lashed
Breaking a display window at Skott's jewelry store, 1314 Niedringhaus avenue, a burglar obtained seven 21-jewel watches and three 17-jewel watches, the ten valued at a total of \$180. The theft was discovered at 4:55 a.m. Sunday by a night watchman.

Two Bicycles Stolen
Two boys' race bicycles, one vehicle maroon and the other black, were stolen from the Connolly yard at 2709 Saratoga avenue Friday night.

Supermarket Burglary
Burglars obtained a small amount of change and may have stolen cigarettes and meat during the night at the Maryland-Bi-Rite Supermarket, 2205 Ponton road, it was reported to Granite City police at 6:45 a.m. today.

Entry was gained by prying open the front door. The burglars loaded a grocery cart with cigarettes and wheeled it to the back of the store, where they left it.

They also loaded some pans with unknown amount of meat, some of which was left near the back door. A dolly was taken from the outside rear of the store and burglars attempted to wheel away a safe from the front of the store. The safe is bolted into concrete and was not moved.

The A-C Waterproofing & Water-proofing Co. of Berkeley, Mo., reported to Granite City police Thursday that various items valued at about \$500 have been stolen from the Nestle Co. container plant south of the city. (Continued on page 12, col. 6)

Brighten Group Outlook
While it has barely had a chance to begin functioning, and a state legal ruling is barring payment of the expenses of appeals board members, zoning is regarded as having sharply improved Madison county's attractiveness for industrial growth, leading to more ample job opportunities.

The ordinance applies to land usage in all unincorporated areas of the county, setting up agricultural, business, residential and manufacturing districts.

During the successful effort to have zoning enacted, it was pointed up by state and federal officials. (Continued on page 12, col. 3)

Personnel Unit Duties List Is Vetoed By Mayor

Veto by Mayor Davis of an ordinance establishing duties of the city council personnel committee was disclosed with issuance of the agenda for the Granite City aldermanic meeting at 8 o'clock tonight.

The agenda does not list budget, but consideration of the 1963-64 budget is a possibility. Final adoption is required by next Monday, July 22.

The agenda also lists bills, reports, notice of a suit filed by the city against the city of Ponton Beach, and a letter from the Delux Trailways giving reasons for discontinuance of service.

Village May Adopt Its First Budget Thursday
The newly-incorporated Village of Ponton Beach is in the process of preparing its first budget, but as yet no date has been set for presentation of the budget at a meeting of the town board.

Village Board President Thomas Staifoff, who plans to call a special meeting of the board when the budget is ready for adoption, is hoping to arrange a meeting for Thursday evening.

Carla Vickers, 2, Dies Of Respiratory Infection

She is survived by her parents; a brother, Dennis Lee, three years old; a sister, Laura Ellen, four years old; her paternal grandparents, Mr. and Mrs. William C. New Site On W. Ponton For Nursing Home

Construction is expected to begin this fall on the Columbus nursing home, but on a different site than originally planned.

Surveying is now underway on a 12-acre plot at 1100 West Ponton road almost directly across the road from the originally-planned five-acre site for the 78-bed home for the elderly.

It is to be erected by Dr. and Mrs. J. C. Byers and Charles Goff, Madison florist and insurance agent. The 12-acre plot on the southern side of the street is inside the Granite City city limits.

At a meeting of the city council in May, council members approved annexation of the proposed five-acre site.

Room For Expansion
The reason for acquiring the 12 acres across the road, Mrs. Byers said, was the need for more room if the home would ever need to be expanded. The land was purchased from Henry Willard, a farmer who still owns the property.

Remodeling And Alterations To The F. W. Woolworth Co. store and improvement of four store fronts in the 1200 block of 19th street are pacing building activity during the first part of July.

The Woolworth store plans remodeling and alterations of lunch counters, floors, walls, lighting and plumbing at an estimated cost of \$19,450. G. H. Sternberg & Co. of Granite City is the contractor. Work has not yet started.

Conferences On GC Assessments In Final Week

Granite City Assessor H. Von Dee Cruse said today his office will remain open after 7 o'clock each evening through Friday of this week for conference with property owners concerning their proposed 1963 real estate assessments.

The assessor also will observe regular 9 a.m.-5 p.m. hours at his office, 1904a Delmar avenue, during this, the final week for conferences. Cruse said property owners can save themselves and his office considerable time if they go down what they feel would be a fair market price for their home and then work from that figure. "For example," he said, "the average value of a home in Granite City is about \$15,500. Multiply that figure by 60% to get the assessed valuation (\$9,300), and multiply again by \$4.016 (the tax rate) to get on Weaver street, was charged with disturbing the peace, Juanita Barnes, 1225 (rear) Logan street, told police he threw a soda bottle at her from across the street. GCHS Students Far Ahead Of U. S. Average In Achievement

Tenth graders in the Granite City school district are continuing to score well above average U. S. tenth graders in educational achievement.

A report prepared by Supt. Harold M. Kaiser shows that the GCHS students exceed national norms in all categories—especially vocabulary, quantitative thinking, natural science and reading of social studies.

Part of the reason is believed to be expansion of the local junior high school program, in which students can begin studying at the seventh grade in specific fields they plan to pursue at advanced levels in high school.

Edgar J. Keel, 70, Dies In Hospital

Edgar J. Keel, 70, one of the first members of the Teamsters local when it was organized in Granite City in 1918, died at St. Elizabeth hospital at 6:30 a.m. Friday.

Mr. Keel, who resided at 2147 Benton street, had been bedridden for the past three years. He had been in the hospital for three days. Two years ago, he spent several weeks in the Jewish Hospital, St. Louis.

Born in Stewart county, Tenn., Mr. Keel had made his home in Granite City since 1918. In 1918, he joined the newly organized Granite City Teamsters local and was employed as a driver of horse-drawn wagons.

He became a railroad worker in 1920 and, during the course of his career, he worked for the railroads, Illinois Central, Illinois Terminal and Big Four. He was a member of the Brotherhood of Railway Carmen of America.

Mr. Keel retired from railroad seven years ago and rejoined Teamsters Local 525. He drove a truck in Granite City until three years ago.

A member of Mount Zion General Baptist Church, Mr. Keel is survived by his wife, Lettie; one daughter, Mrs. David (Minnie Belle) Greathouse, Granite City; one brother, Charles E. Keel of Granite City; and two grandchildren.

Funeral services were held this morning at a Granite City funeral home. Today's obituary column contains details of the arrangements.

"These tests measure the educational achievement of pupils in various subject areas, such as natural science, natural science, correction of expression, quantitative thinking, reading of social studies, reading of literature, vocabulary, composition and use of sources.

"The results from these tests are very significant and clearly demonstrate outstanding achievement and accomplishments by our students.

All of school district students tested represented students from all our schools who are in the elementary school. Therefore, the results reflect the outstanding teaching and work which has been done by our teachers and staff.

"The following results by percentage were obtained by the tenth grade class: background in social studies, norm 59, our school 71; background in natural science, norm 57, our school 76; correction of expression, norm 55, our school 60; quantitative thinking, norm 65, our school 87; reading literature, norm 59, our school 82; reading natural science, norm 61, our school 77; reading literature, norm 53, our school 63; general vocabulary, norm 64, our school 80; and use of sources, norm 58, our school 64.

"It is interesting to note that the students who have taken these tests have had an opportunity to take advantage of our course of study at the junior high school level.

Average For Entire Class "It should be pointed out that these tests scores represent the group and that individuals would vary from the average scores.

"Each student is counseled and helped on the basis of his own individual test scores.

"The reason for presenting this information is to show how our students compare with students in other schools in their secondary schools."

Daughter Born To Former Residents

Mr. and Mrs. Brooks Holder of Troy, Ill., formerly of Granite City, are announcing the birth of a daughter Thursday at St. Joseph Hospital in Highland. The infant weighed eight pounds, eight ounces, and she has been named Lynn. She joins a brother, Gregory Brooks, two years old.

Mrs. Holder is the former Jackie Myers, a daughter of Mr. and Mrs. Robert Myers of Twin Lakes, Troy. The paternal grandparents are Mr. and Mrs. Don Holder North of Little Rock, Ark.

Participants are 3% of the entering freshmen class, chosen on the basis of available records, tests and recommendations of high school principals and teachers.

James scholars are taught in special courses and sections designed to exercise to the fullest their academic capabilities. Generally, they move faster and in more detail in course work. They also are permitted pre-registration and special adjustments in class programs to fit their exceptional abilities.

The group is known as Edmund J. James scholars, honoring the late Dr. James, president of the University from 1906-1920. It is generally acknowledged that the university first attained recognition as a top-notch academic institution under his administration.

This is the fifth class of freshmen to be admitted to the program.

Hoffman had been stationed in Norfolk, home base for the carrier Independence, for two years and in Long Beach, Calif., for nine years. He has been in the Navy 14 years.

While in the Mediterranean, the Independence will make stops in Gibraltar, Cannes, France; and Naples, Italy.

Two GC Zoning Changes Voted, Two Are Denied

The City Plan Commission recommended two changes in zoning classification and turned down two others during a meeting Thursday afternoon.

A petition by Everett Steele of the Steele-Kummennan agency for a change from R-1 single-family residential to C-1 commercial at 3704 Nameoki road was denied.

Also denied was a petition by Henry Ross, contractor, who asked for a "B" business classification for his non-conforming office at 3307 Wabash avenue.

Approved was a petition by John Sobel changing the classification at 2057 Johnson road from R-1 residential to C-1 commercial for a pharmacy, on the contingency that he reach an agreement with the city for 35 feet of the property needed to straighten out Wabash avenue.

Fifty feet would remain.

The commission approved a request by the Chicago Title & Trust Co. to change the classification of lots in the Hillier subdivision from R-1 single-family dwelling units to R-5 multiple-family dwellings.

The commission approved a new subdivision called Dream Villa Manor planned by Ross beyond the Goetz addition in the city. City approval was required, as the property is located within a mile-and-a-half of the city limits.

Recommendations of the commission are subject to the approval of the city council.

Public Hearing Thursday On Pollution Abatement Plan

Probable rates to users and methods of financing are expected to be the chief topics of discussion Thursday at 10 a.m. when the East Side Levee & Sanitary District holds a public hearing on its proposed water pollution abatement program at levee district headquarters, 2642 McCasland avenue, East St. Louis.

The public hearing is required before the district can proceed with its plans to issue \$625,000 in revenue bonds to cover its share of the cost of constructing pollution abatement works in Centerville township, St. Clair county.

Total cost of the project has been estimated at \$825,000, with the portion not covered by the bond issue made up by a \$201,300 federal aid grant for which the levee district has already applied.

Of the total amount, \$611,800 is earmarked for actual construction, \$53,345 for engineering and inspection and \$11,155 for financing costs, legal fees and contingencies.

Major item in the project is the construction of a pumping station at Cahokia, where letting of the contract has been held up by a dispute between the levee district and the low bidder, the Chase Co. of Harbor Wood, Mich.

Chase bid \$549,500 but, when bids were opened, said an additional \$25,000 should be included in the bid price due to a bookkeeping error, making the price \$575,500, or the company should be allowed to withdraw its bid and be refunded a \$60,000 bid check.

Levee trustees refused, and approved a contract for \$549,500. The Chase Co. then asked for and was granted an injunction in the claims of creditors.

"Actually," Dobry said, "this is merely a case to hoodwink the public."

In a typical example, the mailing notes that several tons of brand new cookware with a "list price" of \$199.50 must be sacrificed for \$35, with the inference that this is to satisfy creditors' claims.

"This merchandise is being regularly sold throughout the country in large volume for \$35 by means of this deceptive gimmick," Dobry said, asserting that the list price of \$199.50 is "wholly fictitious."

The Chamber manager said such "public notices" are the latest in a series of deceptive sales stratagems employed by certain promoters to fool the public.

Other versions exposed by the National Better Business Bureau, with which the Chamber is affiliated through membership, are "not picked up by our agents," or that the merchandise would have to go to a "warehouse or freight carrier" to be disposed of.

Still other reasons given for bogus disposal sales represent that the "distributor is giving up franchise," or that goods offered were "not picked up by our agents," or that the merchandise would have to go to a "warehouse or freight carrier" to be disposed of.

The practical way to use copper sulfate is to keep a supply on hand and spray patches of algae as necessary.

Another fictional version requires the promoter to dupe a warehouse or freight carrier into publishing an ad offering cookware at an alleged bargain price because it is "unclaimed freight."

Neighbor's Dog Bites 4-Year-Old On Face

Cammy Nolan, four-year-old daughter of Mr. and Mrs. John Nolan 2901 Harding avenue, injured a scratch beneath her right eye and one at the right corner of her mouth when she was bitten by a dog Thursday afternoon at her home.

The girl had stepped from the house onto the front porch when a neighbor's dog, which had been sleeping on the porch, jumped up and bit her, according to the mother of the girl. The dog will be kept under observation for the next 10 days because it has not had a rabies vaccination. She was taken to St. Elizabeth Hospital and was released after being given a tetanus shot.

Late Summer Completion For Expansion Of Funeral Home

Expansion and remodeling of Mercer Funeral Home, 1416 Niedringhaus avenue, Granite City, is well under way, with a target date for completion set about two months from now.

A new lobby and chapel, with permanent pews seating 225 persons, are being built onto the east side, and the older part of the building is being completely remodeled.

When the work is completed, Mercer's will have five visitation rooms plus a lobby and chapel on either side, making it possible to conduct two funerals at the same time.

At present there is one chapel with a seating capacity of 55 and four visitation rooms.

By removing walls in the old part of the building, two new restrooms and a new office will be formed.

The front exterior is being covered with white terra cotta tiles, and in the new lobby will be two large picture windows. Floors of the lobby will be of terrazo.

INCENTIVE AWARD WINNERS—46 of them—at the Granite City Army Depot are shown being honored for outstanding work or for adopted suggestions. The awards were presented at a formal ceremony by Col. John M. Ansley, commanding officer. Despite the fact that funds

for the incentive awards program were withheld from January through June of this year, Depot personnel continued to submit a multitude of suggestions. The total suggestion awards amounted to \$1,030, with an estimated saving to the Depot of almost \$10,000.

CONTRACT OFFICER CERTIFICATES are presented by Col. John M. Ansley, commanding officer, Granite City Army Depot, to Henry W. Rohlfing (center), procurement officer, and E. E. GC Marine Redesigns Machine Gun Mount

A Granite City Marine Corps sergeant has been awarded a merit award from his division commander for redesigning a machine gun mount for tracked vehicles.

Staff Sgt. William M. Greer, the son of Mr. and Mrs. William J. Greer, 2618 Cayuga street, now stationed in Waco, Tex., received the award from Maj. Gen. Herman Nickerson Jr., while based at Camp Pendleton, Calif.

He and another Marine, Staff Sgt. Virgil L. Street, worked jointly on the project. Street, who also received a "meritorious mast," and Greer were turret mechanics with the 1st Anti-Tank Battalion at the time.

In remodeling the tracked vehicle's machine gun mount, Greer and Street have extended the use and increased the value of the new M60, 7.62-mm machine gun, according to a Marine Corps spokesman. Previously being considered for use by tracked vehicles was the M73 machine gun. Remodeling of the gun mount eliminates the need for this weapon.

During May of this year, Greer and Street presented a model of their idea. It was then tested and approved by the Landing Force Development Center at Quantico, Va., and is being considered for approval by the commandant of the Marine Corps, General David M. Shoup.

The ceremony took place at 2:30 o'clock in the afternoon in the First Methodist Church, with a reception following in Wesley Hall of the church. The pastor, Rev. Robert Watts Thornberg, officiated.

Duffin Co. Files Suit For Cost Of Materials

A foreclosure suit is on file today in Madison county circuit court against Granite City Lodge 272, Loyal Order of the Moose, and Donald Lambert, a tenant.

The suit was filed by Duffin Brothers Lumber Co., which claims it has not been paid for materials supplied under two agreements with Lambert for improvements on part of the Moose property in 1961.

In one agreement, Duffin says it is due either \$733 or \$438. In the other, the company alleges \$165 is due. The firm filed for mechanic's liens with the office of the county recorder of deeds.

Duffin asks that the court determine the amount due, order payment by Lambert in a reasonable length of time, that it be entitled to a mechanic's lien and that a receiver be appointed for the property, which would be sold if the bills are not paid. Duffin alleges oral agreements with Lambert were made with the approval of Moose officials.

July 15, 1963

Dear Taxpayers:

Since man has recognized the necessity of taxes, so has he recognized the need for fair and equitable distribution of the tax load. This is the tax assessor's sole responsibility. To implement such an assessment a revaluation of all property within the township was required.

The re-evaluation of property for the quadrennial year of 1963 has just been completed. This value will remain the same for four years, unless some physical change in the property would reflect on its market value. Before the assessments are placed in the tax books I have invited all interested property owners to come to my office at 1904a Delmar to check upon the value placed on their property. The response has been most gratifying. I realize that only a small percentage of the total taxpayers have availed themselves of this opportunity. I would like to believe that this is an indication that the majority of taxpayers have placed their confidence in my judgment to receive a fair and equitable assessment.

Once again I extend an invitation to any taxpayer in Granite City to visit my office and check his property. In addition to my regular office hours from 9 A. M. to 5 P. M. each day, my office will be open starting this evening and every evening this week from 7 P. M.

When people take more than a casual interest in their local government, when they are willing to participate in local affairs, they are creating the best possible insurance that their tax bills are fair.

In closing I would like to thank the people of Granite City for the kind and courteous consideration shown to my deputy assessors while they were making the personal property assessment.

Very truly yours,

s/ Von Dee Cruise, Assessor

pointed out that 18-Quadrant City organizations representing 23,921 members had gone on record as endorsing zoning.

Property Values

Points cited by the local groups were: "Zoning is vital to the orderly growth and development of Madison county. It will provide much-needed protection of property values for all residents. It will assure a more prosperous future for all of our county citizens by making it easier to attract new industries and business to provide needed job opportunities."

Opposing groups expressed the fear that zoning would prove costly to the county or that it would unduly restrict their property rights. The ordinance applied only to future land use, not the use in existence when it was adopted.

Chairman Landolt, a board member at the time, was one of those voting against zoning. After his election to head the board, he said he would resign as an accomplished fact.

Other business scheduled for Wednesday's board meeting includes a protest from the city of Edwardsville on granting of a special use permit for a trailer on Edwardsville township; restricting of precincts in Collinsville township; reports and \$800 fund transfer; bids for cleaning and repairing venetian blinds; and 12 topics relating to county roads, including authority to obtain bids on various projects and an ordinance for altering speed limits.

Pieper said that an autopsy will not be performed.

Fire Damages Vantage Building In Madison

A vacant two-story frame commercial building and a small house attached at the rear at 1926 Edwardsville road in Madison, were severely damaged by a fire which started Saturday at 4:45 a.m. Saturday.

Madison firemen who responded to the alarm, said the fire started in a rear bedroom of the living quarters of Mr. and Mrs. Everett Cook, probably as a result of smoking in bed.

Edward J. Miller, fire chief, said he was not determined whether the fire was caused by a defective minor burns about the face.

The fire spread to the vacant building, owned by the Vantage Real Estate Co., with damages estimated at \$30,000. A monetary estimate of damages has not been made.

The front tire of a motorcycle parked nearby was badly damaged and the top of a convertible auto burned when an electric wire from the building fell on it.

The commercial building formerly housed a store on the first floor and living quarters on the second floor. Miller said the Vantage volunteer fire department was called to assist at 5:15 a.m.
